

# FOR PLATFORM EDUCATION IN CULTURE OF PEACE

Sharing and linking energies,  
experiences and research that  
contribute to the emergence of a  
humanity at peace.

The **Platform for Education in the Culture of Peace, PECP**, is a contribution from Sheikh Khaled Bentounes, initiator of the International Day of Living Together in Peace.

The objective of this platform is to bring together existing, innovative and therapeutic, educational teaching projects and tools that contribute to the development of a Culture of Peace for a new governance.

Like human society, the platform is an organization where each partner is indispensable to the smooth running of the whole. This platform allows the synergy of all these energies which work in the perspective to bring ideas, intelligence, and knowledge so that a true transmission of the Culture of Peace can be built, from the earliest age.

In particular, the PECP makes available the necessary information on meetings, training courses, educational tools, educational projects and partners.

In a participatory approach, we rely on the synergy of all the partners in order to bring strength and visibility to this sharing of information.

By federating and sharing these resources we wish to consolidate and develop this feeling of belonging to a Whole, in peace and fraternity.

From now on, let us pool our energies in order to contribute to the emergence of a humanity at peace.
